EXTERIOR WALL CLADDING

Transform your space with our versatile wall panels, designed to meet your aesthetic needs. Choose from our Classic Wall Panel to achieve a realistic U-Channel or V-Groove finish. Our Shadowline Series offers two different panel sizes with four reveals: 2", 3", 6", and 12". The brand new 12" Seamless Shadowline Panel can be combined with the Shadowline Series or used on its own for a sleek finish. For a bold, dimensional appearance, opt for the Board and Batten, which pairs perfectly with our 12" Seamless Shadowline Panel. With the ability to choose any finish with all profiles, you can design a look that is uniquely yours. Every panel is rigorously tested and built to withstand all climates. Additionally, all exterior wall panels can be used in exterior soffit applications.

TRIMS

ChamClad® Offers a wide selection of trims designed to provide the most realistic finish while ensuring optimal drainage, fit and visual appeal. For panels over 24' in length, we recommend larger-faced trims to allow for proper expansion and contraction without exposing panel edges. Our trims are available in all-aluminum or aluminum-PVC hybrid options, designed to accommodate expansion and contraction. For interior applications, all-PVC trims are available in smaller sizes to maintain a clean, streamlined look.
